Education

Shanghai University

September 2021 – June 2025

B.Eng in Artificial Intelligence

Shanghai, China

- GPA 3.28/4.00, 84.7/100
 - A+ Courses: Operating Systems, Computer Architecture, Computer Networks, and 28 others
-

Projects

Automatic descriptor acquisition method for NASICON electrolyte

May 2022 - Mar 2023

Group Member, supervised by Yue Liu in Shanghai University

Shanghai, China

- **Overview:** Using the text mining method, descriptors can be extracted from small batch of NASICON solid electrolyte documents and trained based on this model to achieve automatic and efficient acquisition of NASICON solid electrolyte descriptors.
- **Content:** Using **Vue** to develop front-end interfaces and the back-end deployment using **Springboot** to communicate with **MySQL** and **Neo4j** databases. BERT algorithm are deployed using **Pytorch** for paper processing, and the extracted descriptors are used to construct the knowledge map using **Neo4j** database.

Computer Vision Algorithm Recognition System for RoboMaster Robots

Oct 2021 - Dec 2022

Group Leader of Computer Vision Group, SHU RoboMaster Team SRM

Shanghai, China

- **Overview:** Through the video stream of industrial camera deployed on the robot, this project can identify enemy robots' armor plates, and publish the target coordinate information to lock the platform at the recognition center. Its performance is similar to a self-aiming plugin in First-person shooting games.
 - **Content:** The Yolo network is deployed on **Ubuntu** using **CUDA**. Kalman filter and trajectory model are used to improve the impact point of the projectile and achieve accurate strike.
-

Awards

The 21st National Undergraduate Robot Competition (RoboMaster 2022) 3rd Prize, Aug 2022

The 35th Shanghai Youth Science and Technology Innovation Competition 1st Prize, Apr 2020

Shanghai Youth Robot Knowledge and Practice Competition 1st Prize, Nov 2018 and Nov 2019

Shanghai Youth AI Competition. 1st Prize, Nov 2018

Skill Set

Programming Languages:

- Familiar with **C++**, **Python**, **MATLAB**, **HTML**, **CSS**, **TeX**.
- Basic experience in **JavaScript**, **Vue**, **Java**, **SQL**, **bash**.

Tech Skills: C-Compiling methods, machine learning, deep learning, CUDA programming.

Tools: Hands-on experience in **Ubuntu** and **git** on daily basis.

English: 593 for the College English Test Band 4 (CET4)
